JEW TO PRAY WITH GENTILE.

Richmond Congregation Will Unite in Giving Thanks.

Richmond, Va., Nov. 15.—All the religious world of Richmond is agog over the decision of a Jewish and Baptist congregation here to celebrate Thanksgiving day by a joint service. Some time ago Grove Avenue Baptist church, one of the handsomest sacred edifices in Richmond was destroyed by fire. Many churches were tendered the bereft congregation to worship in, but they accepted the offer of the Beth Abba congregation, the wealthiest Jewish church here, and have since held services there, many of the Jews joining with them.

Then the Jewish congregation wanted them to meet with them on Thanksgiving day and the offer was accepted. No creed will be known at this joint service.

Said to Have Sent Roberts a Statement of Terms on Which He Will Lay Down Arms.

London, Nov. 16.—Commandant Gen. Botha, according to a dispatch to the Mail from Pretoria, has sent to Lord Roberts a statement of terms on which he will surrender.

General Botha is in command of the remaining forces of the Boers, and has been able to keep out of the way of the British commanders by strategic movements which were easily executed owing to the extreme mobility of his army.

With the surrender of General Botha it is believed that armed resistance to British authority will cease and tranquility again reign in the Transvaal country.

ALL OF KENTUCKY PRAYS FOR WATER

Stock in the Pasture is Perishing and Human Life Threatened by a Long Drought.

Lexington, Ky., Nov. 15.—On account of a protracted drought there is great suffering in the mountain regions and prayers are offered at every Sunday service and special prayer meetings are held because of the lack of rain. Water is being hauled for many miles by the country people, and many of the tributaries of the Kentucky river have gone dry. Springs have failed and cisterns have gone dry and those families that have no facilities for hauling are at the mercy of their neighbors. Stock is dying on all sides and human life is threatened. All the crops of small grain are practically destroyed, the seed failing to germinate in the dry ground.

TWO FOUND DEAD IN GOTHAM HOTEL

A WELL KNOWN DOCTOR AND A HANDSOME WOMAN.

She Had In Her Possession Numerous Valuable Jewels—It is Believed She Was a Rich Patient of His—There is Much Mystery Surrounding the Case.

New York, Nov. 15.—Dr. Christopher P. Ahlstrom and a handsome well dressed woman were found dead this morning in a room at the hotel Boulevard. Gas from an open valve in the heating stove filled the room.

The physician was identified by papers found on his person. There is no indication that poison was used. The woman, who was found to be the possessor of numerous costly jewels is recognized as a visitor at the doctor's apartments. It is believed that she was a rich patient of the doctor. Her body partly disrobed lay on the floor as if she had made an attempt to reach the door.

Ahlstrom and the woman went to the hotel yesterday afternoon and had drinks at a restaurant and went to a room on the third floor registering "John Mullen and wife."

A year ago Ahlstrom's wife died under peculiar circumstances which led to an investigation, but nothing came of it.

At noon no further identification of Ahlstrom's companion had been made. Her seal skin sack bore the name of a Chicago firm and her linen was marked "M. M." The police are not yet satisfied that the couple came to their death by asphyxiation. The doctor's daughter says the woman called on her father for an hour yesterday before they went out.

EXPENSES OF THE LATE CAMPAIGN

Chairman Bryant Says They Were Less Than \$30,000 for His Party—Special Train Was Cheap.

Milwaukee, Nov. 15.—General Geo. E. Bryant, chairman of the republican state central committee, arrived in the city last evening from his home in Madison, and will remain here today. "I shall not call a meeting of the state central committee until all the bills incident to the state campaign have been paid," said General Bryant.

"I think that we shall get together about December 1—not before that date. What will the cost of the campaign amount to? The expense of my campaign will be less than \$30,000; instead of more than \$50,000 as I have seen it reported. I have money enough to pay all the bills against the committee, unless there is something that I don't know anything about, and I don't believe there is.

"Our heaviest expense was for speakers, and the next was for printing. I cannot tell you what they will amount to. The special train that was provided for Mr. La Follette will not cost more than \$1,000.

"It was a cheap way of campaigning, and I believe if we could have had a special train for the use of Senators Spooner and Charles, say one to take it one week and the other the next, it would have been a good investment.

"I look for Mr. La Follette to return about November 25. I have not heard from him since he left, but I believe that he is at French Lick Springs, Ind."

EPISCOPAL CHURCH BAN ON DIVORCE

RULES MADE BY THE PROTESTANT EPISCOPAL CHURCH.

Divorced Persons Not to Be Married by Episcopal Minister, Whether Innocent or Guilty—Membership in Church to Be Withdrawn from Divorced Person Who Marries Again

New York, Nov. 15.—Radical action on the subject of divorce and remarriage was taken today by a committee representing the protestant episcopal church of America. If the recommendations of the committee are adopted by the general conference of the church at its meeting in San Francisco next October persons of Episcopalian faith who have been divorced cannot be remarried by an Episcopal minister unless the divorce has been granted for causes existing before the first marriage.

This will operate to prevent marriage by either party to a divorce suit, whether guilty or innocent.

Another provision recommended excludes from all means of grace within the dispensation of the church any divorced person who shall have married and be living with husband or wife, as the case may be, while the other party to the divorce is still living.

This canon applies only to the offending party of a divorce and outlaws the offender from church fellowship. It provides for his readoption in the fold, however, on condition that he becomes truly penitent and separates from the party of the second marriage, or if he should be in danger of immediate death and show the spirit of true repentance.

DAIRY SCHOOL TERM OPENS AT MADISON

Has One Hundred and Nine Students, Including One Woman—New Course in Farm Engineering.

Madison, Wis., Nov. 15.—The University of Wisconsin Dairy school opened today with an attendance of 109. Applications to the number of 133 have been received and it is probable all will be admitted to the course. Among the students who have entered is a woman from Turtle Creek, Wis. This is the first woman to take the work offered by the dairy department, but it shows the manner in which our work is taking hold of the rural population.

A new feature of the school established for the coming year, is the course in farm engineering. This will include work in machinery repair, soldering of iron, and so much other work that is incidental to the work of the farm laborer. This work is required of all students in the course.

ROOT AND GRIGGS TO LEAVE CABINET

The Former's Health and the Latter's Business, Will Cause Them to Leave McKinley.

Washington, Nov. 15.—It is learned from authoritative sources that Secretary Root's health won't permit him to remain at the head of the war department for a second term. Recently he underwent an operation for the removal of the fifth carbuncle and his present visit to Cuba is made necessary by the condition of his health. He has informed the president that he will be compelled to retire from the cabinet and returning to his private law practice. With these exceptions the president has succeeded in persuading all of the remaining members of the present cabinet to remain with him for a second term.

GREAT SLAUGHTER OF DEER.

The Woods of Northern Michigan Alive With Hunters.

Marquette, Mich., Nov. 15.—Over 1,150 deer licenses have been issued in Marquette county to date, compared with 1,097 all last season. Since hunting was legal the ground has been covered with snow, and in consequence the game is suffering severely. Hunters report that at least twice as many deer are killed every day as a year ago. If the present weather continues the slaughter will be unprecedented. Deer are very plentiful. Three licenses to hunters other than Michigan men have been issued in this county.

THREE BRITISHERS KILLED.

BUCKEYE STATE HOLDS ITS PLACE

Ohio Retains Its Position as Fourth State—Makes a Gain of 132 Per Cent.

Washington, Nov. 15.—A census bulletin on the population of Ohio issued this afternoon tells a story of almost unexampled growth of that commonwealth since 1880, when its people were first numbered officially.

One hundred years ago the Buckeye state had 45,365 people, and ranked eighteenth among the sister states. Ten years later Ohio was the thirteenth state and had multiplied five times over, having 230,760 people.

A magnificent leap forward also was made in the decade between 1810 and 1820, the state having by the latter the fifth in rank.

From that time Ohio continued to grow proportionately, and in 1840 was the third state in rank, holding this place in successive years up to 1890, when it was forced to give way to Illinois and take fourth place. In 1900 Ohio is again fourth.

Since 1890 Ohio has gained 485,224 people an increase of 18.2 per cent. Between 1880 and 1890 the state gained 474,254 in population, or 14.8 per cent showing how steady has been its progress.

LEONIDS FAIL TO APPEAR.

Harvard Star Gazers Question Accuracy of British Forecasts.

Cambridge, Mass., Nov. 15.—All the preparations made at the Harvard astronomical observatory for observing the Leonids last night were rendered fruitless by the non-appearance of the starry visitors. Last night there was no reason why the predictions of the English astronomers were correct the meteoroids should not have appeared. There was not a cloud in the sky and the blue vault was fairly alive with stars. The non-appearance of the Leonids is a great disappointment to Harvard's observer.

NIHILISTS POISON FOOD OF THE CZAR

Vienna, Nov. 15.—According to dispatches from Sebastopol to the Newspaper Kurier Swowski of Lemberg, Austria, the Czar's illness is due to poisoning. The Nihilists, says the report, obtained access to the imperial kitchen and mixed poison with his food. How they succeeded in their scheme is a mystery as all the servants in the czar's household are under the supervision of the secret police.

TRIP OF HUIN SHAN IN YEAR 449 A. D.

MONGOLIANS DISCOVERED THE AMERICAN CONTINENT.

New Details of Chinese Missionaries' Early Voyage—Fusang Was America—Pekin Disclosures Due to Students' Search for Records of Boxers—Revelation for Scientists.

Washington, Nov. 15.—Additional facts of great interest concerning the finding of Chinese records which show that the Mongolians discovered America in the year 449 A. D. were obtained yesterday. From absolutely reliable sources it is learned that the substance of the news from Peking is as follows:

Ma Twan Lin, a Chinese scholar, in a research among the dusty official records of China brought forth an account of the voyage of Hwui Shan to "Fusang" (Mexico), where he left five missionaries in the year 499.

Hwui Shan sailed from a port of China along the coast of Kamtschatka; thence his little bark skirted the Aleutian (Fox) Islands, finally reaching Alaska where he landed, and whose inhabitants Hwui Shan describes in the records just as found by Ma Twan Lin.

COASTED DOWN PACIFIC.

Leaving Alaska the Chinese sailed down the Pacific, hugging the shore, fearing the storms of the open sea. Mexico was finally reached where the little band of five missionaries landed.

These missionaries made themselves felt on the crude civilization of the natives. As told in last night's dispatch, temples were built and the inhabitants of what is now Mexico and Lower California were initiated into the ancient faith of the Mongolian. China at that time, as everyone knows, was far ahead of the rest of the world in all the arts and sciences. The five missionaries undoubtedly instructed the natives in architecture, the fashioning of instruments of war and peace, and the art of painting and decorating. All of these signs remain in the ruins in Mexico and neighboring sections described in M. de Charney's "Ancient Cities of the New World."

ALASKAN TRADITIONS RECALLED.

The greatest possible interest is attached to this report, because tradition among the natives of Alaska tells of the appearance of centuries ago of a strange people, coming from a far-off land.

Tradition has it, it is said, that the Chinese at that time made numerous attempts to reach the new continent, which they evidently knew about. The sailing vessels were small, and this explains why the adventurous Hwui Shan guided his unwieldy vessel along the line of the Aleutian islands, up around to Alaska, which he must have seen as a new and vast region.

That he landed in Alaska the records found by Ma Twan Lin show, for the evidence is that Hwui Shan returned from his voyage in safety and was able to write of it for the benefit of his countrymen. Alaska must have been too chilly for the Mongolians, and they sought a warmer climate, finally selecting what is now Mexico, a rich and beautiful tropical country presenting alluring opportunities to the Chinese missionaries.

SENATOR DAVIS IS SLOWLY SINKING

St. Paul, Minn., Nov. 15.—Senator Davis is slowly sinking. It is believed. The official report today is of a hopeful nature but the family have been told to expect the worst.

SEARCH FOR INDIAN TREASURE

Daughters of Chief Plashaway Visit Old Home in Indiana.

South Bend, Ind., Nov. 15.—Julia and Lizzie Plashaway, daughters of John Plashaway, one of the most celebrated Potawatomi chiefs, have been here over a week encamped upon their old home farm on the north branch of the river in this city, the farm now being occupied by ex-Mayor Leeper and mother.

When the tribe went west John Plashaway remained behind with his family, and took up land, which, piece by piece got away from him and when he died, about twenty-five years ago, little was left and the family separated.

The daughters had reason to believe that money had been hidden by their father and a clairvoyant's predictions caused them to return to look for the alleged hidden wealth. For over a week they were camped there seeking the missing treasure, being assisted by a man in their digging, but their quest was vain, as far as can be learned.

PROMINENT MONTREAL CLERGYMAN.

Rev. William Lennox Mills, who has just been elected coadjutor bishop of Ontario, Canada, was born in Woodstock, Ont., and was educated at Trinity university, Toronto. He has been for many years a pronounced figure among the Anglican clergy of Montreal.

MADISON AIMS TO DEFEAT CHICAGO

FOOTBALL GAME ON MARSHALL
FIELD NEXT SATURDAY.

There May Be a Game Between Wisconsin and Northwestern Teams—Western Football Championship—Badgers Are Not in It—Professor Rosenstengel's Funeral.

Madison, Wis., Nov. 13.—[Special.]—To defeat Chicago by a score of more than 17 to 0, is the task set before the Badger football team next Saturday at Marshall field. If the team proves equal to the task the victory will be double. It will wipe out last year's defeat at the hands of Stagg's team by this score, and will show that Wisconsin is superior to the strong team sent out by Iowa this year.

Iowa defeated Chicago two weeks ago by this same score of 17 to 0. It is believed that the 'Varsity' players can do the trick if they have a good following of Wisconsin rooters at the game Saturday. To arouse enthusiasm over the excursion to Chicago, Phil King has called for a student mass meeting to be held tonight at Liberty hall.

The team will leave for Chicago at noon tomorrow, and the excursion will follow on Saturday morning. The advance sale of tickets has been immense, and all indications promise that Marshall field will be taxed to its utmost capacity.

Game with Northwestern.

Provisional arrangement for a game between Wisconsin and Northwestern have been made by Manager King and "Doc" Hollister. The Methodists play Minnesota next Saturday, and providing the Gophers win, Hollister says he will pit his team against the Cardinal at Milwaukee on November 24. Should Northwestern defeat Minnesota the Evansons would have nothing to gain by a meeting with Wisconsin, but it is highly improbable that this will happen.

Western Football Championships

At present there are three teams who claim to have a log chain on the championship of the western colleges. Iowa, Minnesota and Northwestern are in the race. Iowa has defeated Chicago and Michigan by decisive scores. Minnesota has tied Chicago, won from Wisconsin by the narrow margin of a single point, and administered defeat to Illinois; Northwestern defeated the Midway eleven last Saturday, plays Minnesota next Saturday, and is scheduled to meet the Iowans on Thanksgiving.

Wisconsin, because of her fatal defeat by Minnesota, can make no claim to a clear championship title, but it seems very probable that we will win more championships games than any other western team, and the final footing-up of the season will show that the Cardinal has maintained her prestige in western athletics.

NEXT WISCONSIN STATE LEGISLATURE

The State Journal of Madison this reviews the membership of the next Wisconsin legislature:

The next senate will have 31 republicans and 2 democrats, as did the last. The democrats are said to have lost three in the assembly which will make 84 republicans and 16 democrats. Speaker George H. Ray of La Crosse is re-elected. The Milwaukee News is pushing A. R. Hall, the Dunn county reformer, for the speakership. Whether this is more than journalistic energy is not known. Of course Mr. Hall is competent for the

post, being a veteran in both Minnesota and Wisconsin legislatures and having been speaker of the former. Mr. Ray is a conservative but by no means can be styled a machine creation. Indeed his independence is what has won him the most respect. Mr. Hall is a very useful man on the floor and if the idea is to promote aggressive legislation, he can do more good there than at the speaker's desk.

The son of Congressman Caswell in Jefferson was defeated. Amos Gerner of Wood county one of the most useful legislators, a democrat, was turned down. Christian Sarau of Oshkosh is re-elected, thus bringing to Madison the famous wit, whose "I move that we adjourn," was in itself enough to convulse the house. Clark county sends L. M. Sturdevant. Henry Overbeck of Door county is re-elected, though there is talk of his enjoying some more remunerative job under the administration. Judge Orton of Lafayette will be back to grapple with the insurance companies. Thomas of Chippewa. Francis Keene and "Ikey" Karel, the footballist of Milwaukee, Elia of Racine, Dahl of Vernon will be familiar faces. Among new names is that of Duerrwaechter of Washington, Svenholt of Shawano, while from Rock come legislators Ameron Eager and Halvor Cleophas. It gives promise of being an average body of law-makers.

PURCHASE SITE FOR NEW BREWERY

Lots Eleven and Twelve in Riverside
Addition—Near the Jackson
Street Bridge.

The N. B. Robinson Brewing company have purchased lots eleven and twelve, in the Riverside addition near the Jackson Street bridge and will erect thereon a modern brewery, to cost in the neighborhood of four thousand dollars. The rapidly increasing business of this firm have forced them to look for more commodious quarters. The building will be a three story structure and will contain all the latest improvements known to brewers.

A large cold storage warehouse will also be erected on the bank of the river. The firm will harvest the ice necessary to fill the warehouse from the river.

The new brewery will be located between the C. & W. R. R. side track and Jackson street bridge only a short distance from the large tobacco warehouse occupied by Julius Marquisse.

The new brewery will be a great improvement and addition to the manufacturing interests in that part of the city.

The shipping facilities are the best, the Northwestern side track running within a few rods of the proposed building and it is only a question of a short time when the C. & N. B. R. will have a spur in that part of the town.

W. J. Miller's residence is resplendent in its new coat of paint which was applied by Painter Coleman and assistants of Janesville.

Afton republicans have cigars to burn these days and all because they pinned their faith to the ticket headed by McKinley and Roosevelt; while some misguided disciples of Bryanism evidently thought the Nebraskan had a show and boldly wagered on the result much to their sorrow.

Pleasant Social Gathering.

The ladies of Eastern Star lodge No. 69 are noted for their pleasant social gatherings in connection with the regular work of the lodge. Last evening they served supper at their hall after which the regular work of the evening was taken up. Col. E. O. Kimberly favored the ladies with a solo entitled, "Wisconsin," which so pleased the audience that he had to respond to an encore. The balance of the evening was spent in dancing and other amusements. The party broke up shortly before midnight.

Contagious Blood Poison

There is no poison so highly contagious, so deceptive and so destructive. Don't be too sure you are cured because all external signs of the disease have disappeared, and the doctor says you are well. Many persons have been dosed with Mercury and Potash for months or years, and pronounced cured—to realize when too late that the disease was only covered up—

Like Bogots Like. Driven from surface to break out again, and to their sorrow and mortification find those nearest and dearest to them have been infected by this loathsome disease, for no other poison is so surely transmitted from parent to child as this. Often a bad case of Rheumatism, Catarrh, Scrofula or severe skin disease, an old sore or ulcer developing in middle life, can be traced to blood poison contracted in early

The Sin of the Parent. life, for it remains smoldering in the system forever, unless properly treated and driven out in the beginning. S. S. S. is the only antidote for this peculiar virus, the only remedy known that can overcome it and drive it out of the blood, and it does this so thoroughly and effectually that there is never a return of the disease to embarrass or humiliate you afterwards.

SSS cures Contagious Blood Poison in any and all stages; contains no mineral to break down your constitution; it is purely vegetable and the only blood purifier known that cleanses the blood and at the same time builds up the general health.

Our little book on contagious blood poison is the most complete and instructive ever issued; it not only tells all about this disease, but also how to cure yourself at home. It is free and should be in the hands of everyone seeking a cure. Send for it.

EX-GOV. HOARD IN GEORGIA.

Stimulus to the Awakening Dairying Interests in the South.

Ex-Gov. Hoard has been interesting the people of Georgia in their growing dairying interests and the newspapers of that state are giving a good deal of attention to his addresses. The Atlanta Constitution says: "The work which Mr. Hoard has accomplished at home entitles him to attention abroad. In Georgia he will find a fertile field. Here he will find a people who have been poor in the very waste of riches which they could have utilized. If he can put them upon the right road; if he can inspire them with the success which he has brought to his own people, he will have accomplished a task which will entitle him to the grateful remembrance of Georgia. The farmers of Georgia should turn out to hear the story which the distinguished visitor from Wisconsin has to tell. He will convince them that they have no occasion to visit the Klondike to find success in life."

"Gov. Hoard," says the Macon Telegraph, "has made a tour including several of the best developed dairy sections of the state, and after the Macon visit goes to the meeting of the State Dairymen's association at Griffin, where he will meet the most enterprising and progressive men in the business in Georgia and will give them the benefit of his expert knowledge. This visit can but be productive of good to the dairy interests of the state. As Mr. Hoard has said, Providence has done all that is possible for Georgia in the way of preparing for the care of cattle and securing from them a maximum of revenue for a minimum of cost."

Divorces Barred Out.

New York, Nov. 15.—Episcopalian authorities have taken preliminary steps to forbid rectors of that faith from performing the ceremony of marriage when either of the contracting parties is a divorcee. Episcopalians who have been divorced and remarry are to be excommunicated by the church save when the person so remarrying is the innocent party to a divorce secured on the grounds of adultery.

ADVICE To Piano Buyers.

The above cut will give you some idea how cheap pianos are made. BEWARE of cheap pianos and cheap prices; such pianos are short lived and are very poor in quality and tone.

Don't be in a hurry to buy a piano. take a little time, give it thought and do not worry about factory prices. No dealer sells pianos without some profit, don't you forget it. It is far better for you to buy a good six octave organ, than to waste your money on a cheap piano.

But if you still insist on a cheap piano I will have one in stock for \$105.00, now talk about factory prices and profit.

It has always been my aim in buying pianos to look for quality in tone and material also in durability.

Good Pianos Give Satisfaction, Cheap Pianos—Dissatisfaction.

Which will you choose? My prices are low on high grade goods, but I cannot sell them to you at factory prices. Call and see my stock at 38 South Main street. My instruments will not be so many in numbers, but great in quality, and should you want half a dozen at a time I can give you prices accordingly. Now, then, my customer, I hope I have put you on the right track. It is easy to buy a Piano, that is if you get started right. A child twelve years old can buy a good Piano if he or she goes to the right place. Do you see the point? A little common sense talk won't do you any harm. Call and see me next week. Do not forget the place,

EARLY ROCK COUNTY PIONEER IS DEAD

Demise of Humphrey Clark of Shopiere, Causes Loss of One of the Oldest Settlers.

Another link which has closely united the early history of Rock county with that of the present has been severed by the death of one of her old time settlers, Humphrey Clark, of Shopiere.

Mr. Clark was born in Newbury, Vermont, April 17, 1821. He was the youngest of a family of seven children all of whom have preceded him to the better land except his sister, Mrs. Abby Culver, whose home for many years was in Shopiere and later in Beloit, but now resides with a daughter at Redfield, South Dakota. Mr. Clark was of New England parentage, his father's birthplace being in the town of Colchester, Connecticut and that of his mother in the town of Hanover, New Hampshire.

When a boy only sixteen years of age, in company with an older brother, he came to Beloit, arriving there April 14, 1837, after a long and tedious journey overland from Grass Lake, Michigan. Soon after reaching Beloit he was taken seriously ill and came very near dying, lying unconscious for three weeks, and he owed his life to the care and nursing of an older sister, the wife of Henry Mears, who was so closely connected with the early history of Beloit township and whose son, Rev. Lucian Mears, now dead, claimed the honor of being the first child born in Beloit.

For a time Mr. Clark worked for Mr. Blodgett, of Beloit. He finally purchased two portions of land near Shopiere, his brother-in-law, Mr. Swingle, owning a tract between those owned by Mr. Clark and another tract west of Mr. Clark, while another brother-in-law, Caleb Culver, selected land joining Mr. Swingle on the north and Mr. Clark on the west. In December, 1846, Mr. Clark married Miss Electa M. Woolsey. A few years after he sold the western portion of his land to William Dodge and built a barn on the eastern portion, in which they lived until a house could be built. Three children came to bless their home, Eugenia, Jennie and Arthur. Mr. and Mrs. Clark celebrated their silver wedding in 1871.

In March, 1874, Mrs. Clark died, the daughters following soon after, Eugenia, who married S. G. Liscomb, dying in November, 1875, and Jennie, in March, 1879, both in the bloom of young womanhood, of that dread disease, consumption.

In September, 1875, Mr. Clark married Esther J. Curtiss, a sister of Mrs. C. M. Treat and Sylvanus Curtiss, both of whom were residents of Janesville in an early day, and afterwards made homes near Clinton on the Milwaukee road and later moving to Clinton.

Mr. and Mrs. Clark reached their twenty-fifth wedding anniversary last September.

Six months ago Mr. Clark submitted to an operation it being the only hopes of life. At his advanced age it was a severe tax on his system but he so far recovered as to be able to ride out quite frequently. Saturday, Oct. 27th, he had a stroke of paralysis. Quietly at the last, like a child going to sleep, Mr. Clark passed to his eternal rest at twenty minutes of three, Tuesday morning, Nov. 6th, cared for to the last by his faithful wife and his son and daughter, Mr. and Mrs. Arthur Clark.

Mr. Clark was very thorough and systematic, and his home and farm were a model of neatness and care. He dearly loved to talk of the early days and tell of the long trips necessary to sell the produce of the farm, when Racine was the nearest market, and his eyes would sparkle as he recounted the experiences and hardships of the early settlers.

Among the many bygone incidents that have been called to mind by his departure was one he used to tell of a squirrel. The snow was very deep with only a track for the traveler to tread. Mr. Clark was returning home one day on horseback and when near Turtleville he discovered a squirrel in the track ahead of him.

He overtook the little creature and slipped from his horse to pick it up when it suddenly ran up the horse's leg and took refuge on his back. The horse was so startled by the turn of affairs he took to his heels, leaving Mr. Clark to walk home.

Mr. Clark was one of the first subscribers of the Janesville Gazette, and it has been a weekly visitor to his home nearly all the time since.

He joined the Congregational church of Shopiere early in life and early in the church history, although not quite a charter member.

The song service was beautiful, Allison Parker, Minard Moti, Mrs. Laura Brown and Mrs. Libbie Steadwell composing the quartette, with Miss Ida Sweet presiding at the organ, all of whom Mr. Clark had known from childhood. Beautiful flowers arranged in sickle and sheaf and bouquet covered the casket and were a marked contrast to the chill of the first snow storm of the season which had been raging since his death.

In spite of the threatening skies and bad roads neighbors and friends gathered at the house Wednesday afternoon to pay their last tribute of love and respect. Rev. J. W. Jordan, of Chicago, Mr. Clark's former pastor, speaking from the words "A Hoary Head is a Crown of Glory."

He was tenderly laid to rest beside

his loved ones in the village cemetery at Shopiere, by B. H. Smith, Mr. Wheeler, Edward Hopkins, William Butler, Mr. Atkinson and Charles Dresser, all of whom had been his near friends for many years. "And he was not for God took him."

MONEY, WEALTH AND CAPITAL.

Many intelligent people are possessed with the notion that money, the circulating medium of specie and paper, is the all important factor in the nation's wealth. Writers on political economy frequently advance this theory, and the free silver apostle does not hesitate to say that if the white metal could have free and unlimited coinage, money would be more plenty, and more evenly distributed.

How any man of sound mind and possessed of ordinary faculties can be so deluded is one of the mysteries that remains to be explained. The money of this country, while of great convenience, is an insignificant factor in computing the wealth of the nation or individual.

The report of the United States treasurer, just published, shows that the circulating medium today in all kinds of money is about \$2,113,000,000 or \$27.00 per capita. That means money enough to board every man, woman and child in the country for thirty days at a second class hotel. If that was all that wealth represented, it would mean after thirty days, bankruptcy and famine, worse than now existing in India.

Individual or corporate wealth is not represented by money that a man carries around in his pocket, or by the magnitude of a bank account. A man may be wealthy with a very moderate bank account, and wealthy men seldom carry much money in their pockets. The wealth of this country is too large for pockets or bank vaults.

Some one recently made a careful estimate of the wealth represented in a square mile of the down town district of Chicago; a mile south from the river and west from the lake. The real estate in this territory, including the buildings, is valued at \$350,000,000, and the personal property represented in merchandise and manufacturers' stocks is listed at \$150,000,000 more. This of course is the richest mile in the city, but it is plainly apparent that long before the suburban district was reached the entire circulating medium of the nation would be necessary to purchase the wealth of Chicago.

The wealth of the corporation invested in railway construction and equipment, or in factory buildings and machinery is in no way a part of the circulating medium called money.

The average wealth of the 3,000 farmers in Rock county ten years ago, with land valued at \$50 per acre and all debts paid, was \$10,000, and yet it is safe to say that a large majority of them never had a bank account, and many of them seldom, if ever, saw the time when they had \$100 in their pockets.

The merchant with a few thousand dollars' worth of goods, conducts a successful business with a very moderate bank account.

Material wealth is represented in a thousand different things; it includes property of every description, the farm, the mine, the factory, the store, and an endless variety of investments.

Money is confined to two representatives, paper and specie. It is the most unsubstantial kind of wealth, because so easily lost, either by failure, recklessness or dishonesty.

Wealth is a necessity. Money is a convenience. Wealth represents 98 per cent of the property of the people. Money two per cent.

Add to this large percentage of wealth, "confidence," the great conveyor of all business enterprises, and the volume of currency is always adequate. Destroy confidence and wealth shrinks in value, and money seeks a hiding place. Contraction of the currency is never experienced in good times, and at present there is a large surplus awaiting investment.

England recognizes American railroad ability. The president of the Grand Trunk system, Sir Charles Wilson, is now in this country, in search of an American manager. He says that there is much to learn about railroad management, and America sets the pace for the world. That is a flattering compliment and should cause every young man to step up a little higher in appreciative citizenship, and bow a little lower to the flag that stands him, and surrounds his life with grand possibilities.

Richard Croker is very reticent and says that he is tired and wants a long rest. He is planning a trip to England. Why not try Nebraska? The air of the western state beats London fog seven points. It restored Mr. Bryan in twenty-four hours to complete health and vigor. He might not have been in the skirmish, but from all reports he was in it. Nebraska air is all

right. People who breathe it for a few years become so vigorous that they are able to leave the state and pick up a living most anywhere.

Governor Pingree, of Michigan, is going through his potato patch for the last time. He has a promising crop, and by another extra session of the legislature proposes to put it in cold storage before turning the keys over to his successor. The governor is a large man in some ways, but altogether too erratic for the chief executive of a great state. Michigan has enjoyed his potatoes and patiently endured his vagaries. The state is entitled to a rest, which it will thoroughly appreciate after January first.

The democratic national committee composed of Bryanites, has secured permanent headquarters in Chicago, and for the next four years will make life a burden for conservative democracy. Every man who deserted the party and voted for McKinley, or who failed to loyally support the Bryan heresy is denounced as a traitor, and read out of the party for all time. The outlook for Simon pure democracy is not very flattering.

The Paris Exposition will be recorded as a spectacular success, but a financial failure. The promoters are doubtless able to stand the loss, but thousands of people who invested their small fortunes in the enterprise will never recover. The suburban district of Chicago is a monument to the same kind of folly, and it is an open question whether that class of celebrations are of benefit to a city that entertains them.

Dr. Parkhurst, the idealist of New York, is advocating an ideal daily for the redemption of Tammany. If he invests in the enterprise he will discover that the world is intensely practical, and that the "ideal" audience is extremely limited, especially in New York city.

The cream of trusts will soon be in operation, if the creamery combine, now in process of organization, is perfected. Wisconsin will be in it.

Jeffries to Fight Sharkey.
New York, Nov. 15.—A match was made in this city today between James J. Jeffries, champion pugilist, and Tom Sharkey. The terms of the agreement are that the winner shall take the entire purse. The battle will be decided next May before the club offering the largest purse. If the battle takes place in Nevada it will be to a finish. Each principal deposited \$2,500 to insure his appearance in the ring. The articles also contained the provision that should Jeffries make a match with either Bob Fitzsimmons or Gus Ruhlin, that battle would be decided before the present one. The same conditions prevail in regard to a possible match being made between Sharkey and Ruhlin. Jim Jeffries is said to have lost \$7,000 with a well-known Wall street broker yesterday, but in the course of a couple of weeks the big fighter hopes his wad will be increased ten fold. Jeff won't tell what his wealth-producing stock is.

ROYAL COUSINS ARE TO MARRY

Engagement of Prince George and Princess Victoria Announced.

London, Nov. 15.—Royalty is interested today in the unofficial announcement of the engagement of Prince George of Greece and Princess Victoria of Wales. They are first cousins. Rumors and denials of the story have been plenty, but the report now seems to be reliable. Another week or so, it is said, and the formal and official announcement will be made.

The fony of romance and of picturesque wooing has prevailed in this royal alliance. Manly and vigorous, of mien, Prince George captivated his fair fiancée as they listened to the cooing of the birds in the gardens around the castle of Fredensburg in Denmark this summer. And when the princess with her mother, the princess of Wales, returned to Sandringham, the seion from Greece hurried thither on the next train.

It is reported that the sanction of the princess' parents was obtained soon after the arrival. Late today the princess of Wales, Prince George and possibly Princess Victoria will visit Queen Victoria, at Windsor, and, it is believed, they are going for the sole purpose of gaining her consent to the royal wedding.

TURKISH CONTRACTS IN COURT

Suit for Title to Them Is Brought at Newark, N. J.

New York, Nov. 15.—Vice-Chancellor Stevens of Newark, N. J., next Wednesday will hear an action in chancery involving title to contracts with the Turkish government said to be valued at more than \$600,000. The International Emery and Corundum company has applied for an order directing the National Abrosive company to assign to it the contracts in question. The suit is brought in New Jersey because both are organized under its laws.

The contracts, it is asserted, were originally secured from the Turkish government by W. F. and A. H. Kimball of Tiffin, O. The International company obtained an option on an assignment of them. This option, the present defendants declare, expired through failure of the complaining company in allowing it to lapse.

Little Things Are Important.

How often does a little thing—a look, a lifting of the eye-brow, a quiver of the lip, a telltale blush, a peculiarity in the handwriting—reveal the hidden secrets of the soul? "In what part of the letter did you discover hesitation?" said a diplomatist to Talleyrand. "In the n's and g's," was the reply. To Make Six Torpedoes—Facts.

New York, Nov. 15.—The Electric Boat company of Manhattan has contracted for a site for a permanent testing plant at New Suffolk, L. I. The company controls the torpedo boat Holland. A breakwater and basin will be built and half an acre of new land made.

About fifty men will be employed during the coming season. It is announced that six boats of substantially the same pattern as that of the Holland will be built. There will be experiments of various kinds in Peconic bay.

BROILED PORTERHOUSE STEAK.—To properly broil steak a strong fire is necessary. The coals should be at white heat and so high that the broiling iron is within three inches of them. Having trimmed the steak of all fat, place it between the broiler and over the coals. Count 80, turn the steak and count 40 again and continue thus until the steak is done, about eight minutes. If you like the steak medium rare, add two minutes more or less, as you prefer it. The frequent turning of the steak prevents the juice from dripping, with the result that the steak is wonderfully juicy and tender. A two inch steak is preferable to one cut thinner. When done, transfer the steak to a hot platter, put a few shivers of butter on it, sprinkle with salt and pepper and place in a hot oven three minutes before serving. If a gas stove is used, the heat should be turned into the oven half an hour before placing the steak on the broiler.

HIS REALTY AGAIN

Jury Finds for the Janesville Man After the Trial at Rockford Yesterday.

The jury in the case of Hammon S. Ames vs. W. W. Sawyer, returned a verdict yesterday afternoon at Rockford, Ill., finding for the plaintiff. In the words of the verdict returned by Foreman F. W. Waterman: "We the jury find the title recovered under replevin to be in the plaintiff and that he is entitled to the possession of the property."

The case was closed and the arguments completed at noon. The jury was out less than two hours. After the finding had been read Mr. Ames with tears in his eyes shook hands with each of the jurymen.

Fank A. Ayres of this city was one of the witnesses in the case and testified in the Rockford courts on Tuesday.

CURRENT SOCIETY EVENTS.

Social Happenings of Today and in the Future.

Mrs. C. S. Jackman and Mrs. F. H. Jackman entertained this afternoon at 2:30 o'clock at the home of the former on East street. A tasty luncheon was served and the house was very prettily decorated.

Invitations are out for a 6 o'clock tea to be given Thursday, November 22 by Mrs. W. T. Vankirk and Mrs. C. W. Vankirk at the home of the former on Milton avenue.

Story on a Lawyer.

A good story is told on one of the lawyers engaged in trying the Sarah Bell case in the circuit court. Dr. Samuel Collins, one of the witnesses for the board of foreign missions of the United Presbyterian church of North America was asked to explain the difference between the different doctrines of the Presbyterian faith. The reverend doctor replied that it would be utterly useless to attempt to explain the different shades of the Presbyterian doctrines so that they could be understood by a lot of lawyers. He evidently believed that lawyers were not spending much time in studying the difference in religious beliefs.

The funeral of W. H. McGhee was held from his home this afternoon at 2 o'clock. Rev. A. H. Barrington, rector of Christ church, officiated. The interment was in Oak Hill cemetery.

Mrs. H. F. Roberts and wife of Chicago are the guests of their son, E. C. Roberts, N. Vista. Ave.
